

Arranging Booster COVID-19 Vaccination transport: update August 2022

Transport to COVID-19 vaccination appointments can still be arranged with the volunteer transport providers that cover Warwickshire, they are working to a standard operating process that includes use of PPE and appropriate cleaning schedules. Any available transport is subject to volunteer/funding availability. Currently this transport is being provided free of charge. It can be requested if residents have no other means of accessing vaccination sites, including initially asking households/carers/relatives for support. This is to retain capacity in the system.
