Penderels Trust
Opening the Door to Independent Living

Guide to Independent Living Services in North and North East Lincolnshire and East Riding of Yorkshire

Who is Penderels Trust?

Penderels Trust supports people who receive a direct payment or Personal Budget for their care. We are a not-for-profit organisation and we have been supporting people with disabilities in North Lincolnshire, North East Lincolnshire and East Riding of Yorkshire for many years.

How do I get the support I need?

If you receive a Personal Budget, you can purchase support services to help make managing your care much easier. The amount of money you will have to spend on these support services will depend on your assessment. Please talk to the person who does your assessment about how much money you will receive.

There may be a few organisations who can offer the services you need and you can choose between them.

What support services do Penderels Trust offer?

Whether you employ your own staff or use staff from a care agency, Penderels Trust can support you. The services we offer include:

- Choosing and using a care agency
- Employing and managing your own personal assistant(s)
- Payroll
- Managing your care money on your behalf
- Appointeeships

To make things easier, we have split our services into different options depending on the type of support you need. The summary and price list table shows you in more detail what each option includes.

If you are not sure what support you need, you can talk to one of our experienced Independent Living Advisers who can help you decide which option is best for you.

I would like to find out more, what do I do next?

Please contact us at the office, the details are on the back cover.
