

## Are you a great PA who would like to get involved in promoting the role?

We are working on a number of projects around the personal assistant (PA) role and are looking for some great PAs to get involved.

- 1) Penderels Trust is seeking a small number of **PA Champions** to help us create resources to support PAs and promote the unique role of the PA. This is a longer term volunteer role and will probably take about 4 hours per month of your time but this may vary and we can be flexible. We think this will be a great opportunity to develop new skills and experience different ways of working. You will be given full support and training from the Penderels Trust team.
- 2) The **Greater Manchester Health and Social Care Partnership** is raising awareness of the PA role and want to show what it's like to be a PA and what makes the job so rewarding and interesting. They are looking for PAs living or working in Greater Manchester who are happy to share a bit about themselves and their role. This may be through text, photos or a short video clips they can use in promotional material. They are offering a **free shopping voucher** as a thank you to everyone whose material is used in the promotion.
- 3) A company called **Neurocare KnowHow** is creating training material for PAs who work with people with neurological conditions such as Parkinson's Disease, Multiple Sclerosis and Motor Neurone Disease. They are looking for PAs who have experience of working with people living with this type of condition. You could get involved either by sharing your experiences or to help them produce material. They are offering a **free shopping voucher** for anyone who gets involved.

If you are interested in getting involved in any of these initiatives or would like some more information, please email us at [parecruitment@penderelstrust.org.uk](mailto:parecruitment@penderelstrust.org.uk)
